this is the first collection of scholarly essays on the homeric hymns a corpus of 33 hexameter poems celebrating gods that were probably recited at religious festivals among other possible performance venues and were frequently attributed in antiquity to homer after a general introduction to modern scholarship on the homeric hymns the essays of the first part of the book examine in detail aspects of the longer narrative poems in the collection while those of the second part give critical attention to the shorter poems and to the collection as a whole the contributors to the volume present a wide range of stimulating views on the study of the homeric hymns which have attracted much interest in recent years

in this unique and finely wrought collection award winning poet and scholar peter mcdonald gives us the first contemporary translation of the homeric hymns a collection of 33 anonymous ancient greek hymns celebrating individual gods from zeus to aphrodite apollo to hermes each hymn tells a story about a particular god and every poem is a miniature epic in itself as mcdonald explains in his comprehensive introduction homer without the hymns is less than homer and this translation revives the classic text for the 21st century reader establishing its rightful place alongside copies of the iliad and the odyssey on the desks of students scholars and lovers of the classics worldwide

the reception of the homeric hymns is a collection of original essays exploring the reception of the homeric hymns and other early hexameter poems in the literature and scholarship of the first century bc and beyond although much work has been done on the hymns over the past few decades and despite their importance within the western literary tradition their influence on authors after the fourth century bc has so far received relatively little attention and there remains much to explore particularly in the area of their reception in later greco roman literature and art this volume aims to address this gap in scholarship by discussing a variety of latin and greek texts and authors across the late hellenistic imperial and late antique periods including studies of major latin authors such as virgil horace and ovid and byzantine authors writing in classicizing verse while much of the book deals with classical reception of the hymns including looking beyond the textual realm to their influence on art the editors and contributors have extended its scope to include discussion of italian literature of the fifteenth century german scholarship of the nineteenth century and the english romantic poets demonstrating the enduring legacy of the homeric hymns in the literary world

the homeric hymns are a collection of thirty three anonymous ancient greek hymns celebrating individual gods the hymns are homeric in the sense that they employ the same epic meter dactylic hexameter as the iliad and odyssey use many similar formulas and are couched in the same dialect they were uncritically attributed to homer himself in antiquity from the earliest written reference to them thucydides iii 104 and the label has stuck the whole collection as a collection is homeric in the only useful sense that can be put upon the word a w verrall noted in 1894 that is to say it has come down labeled as homer from the earliest times of greek book literature the oldest of the hymns were probably written in the seventh century bc somewhat later than hesiod and the usually accepted date for the writing down of the homeric epics this still places the older homeric hymns among the oldest monuments of greek literature but although most of them were composed in the seventh and sixth centuries a few may be hellenistic and the hymn to ares might be a late pagan work inserted when it was observed that a hymn to ares was lacking walter burkert has suggested that the hymn to apollo attributed by an ancient source to cynaethus of chios a member of the homeridae was composed in 522 bc for performance at the unusual double festival held by polycrates of samos to honor apollo of delos and of delphi the hymns which must be the remains of a once more strongly represented genre vary widely in length some being as brief as three or four lines while others are in excess of five hundred lines the long ones comprise an invocation praise and narrative sometimes quite extended in the briefest ones the narrative element is lacking the longer ones show signs of having been assembled from pre existing disparate materials most surviving byzantine manuscripts begin with the third hymn a chance discovery in moscow in 1777 recovered the two hymns that open the collection the fragmentary to dionysus and to demeter complete save some lacunose lines in a single fifteenth century manuscript some at least of the shorter ones may be excerpts that have omitted the narrative central section preserving only the useful invocation and introduction which a rhapsode could employ in the manner of a prelude the thirty three hymns praise most of the major gods of greek mythology at least the shorter ones may have served as preludes to the recitation of epic verse at festivals by professional rhapsodes often the singer concludes by saying that now he will pass to another song a thirty fourth to hosts is not a hymn but a reminder that hospitality is a sacred duty enjoined by the gods a pointed reminder when coming from a professional rhapsode
