transpersonal psychology concerns the study of those states and processes in

which people experience a deeper sense of who they are or a greater sense of connectedness with others with nature or the spiritual dimension pioneered by respected researchers such as Jung, Maslow, and Tart. It has nonetheless struggled to find recognition among mainstream scientists, now that is starting to change. Dr. Michael Daniels teaches the subject as part of a broadly based psychology curriculum, and this book brings together the fruits of his studies over recent years. It will be of special value to students, and its accessible style will appeal also to all who are interested in the spiritual dimension of human experience. The book includes a detailed 38-page glossary of terms and detailed indexes.

*Participation and the Mystery* is both an introduction to and expansion of Jorge N. Ferrer's groundbreaking work on participatory spirituality, which holds that human beings are active cocreators of spiritual phenomena, worlds, and even ultimates. After examining the impact of his work since the publication of *Revisioning Transpersonal Theory*, Ferrer discusses the relationship between science and transpersonal psychology, the nature of a fully embodied spirituality, and the features of integral spiritual practice. The book also introduces a participatory philosophy of education and applies it to the academic teaching of mysticism and a novel approach to embodied spiritual inquiry, critically engaging the influential work of Stanislav Grof, Ken Wilber, and A. H. Almaas. Ferrer concludes with an original solution to the problem of religious pluralism that affirms the ontological richness of religious worlds while avoiding the extremes of perennialism and contextualism, offering a hopeful vision for the future of world religion. *Participation and the Mystery* is an invaluable resource to anyone seeking to deepen their understanding of participatory approaches to transpersonal psychology, integral and contemplative education, contemporary spirituality, and religious studies.

*Archetypal Coaching* offers a transformative approach to personal growth, blending ancient Greek astrological foundations and dream work with modern coaching techniques. Somatic awareness and Jungian active imagination, astrological archetypes, illuminate the roots of struggles and highlight potential resources, while dreams act as a focused lens, bringing attention to issues that require immediate exploration. The approach explored within this book emphasizes interactive dialogue with archetypes and symbols, using embodied imagination and somatic awareness to guide clients in creating a personal symbol that embodies their inner process and potential, echoing Jung's concept of the transcendent function, supported by six in-depth case studies and numerous examples. The author outlines a holistic framework for integrating astrology and dream work into coaching, emphasizing personal growth and treating archetypes as dynamic tools for creativity and self-discovery. This book will appeal to established coaches, counselors, and therapists interested in integrating archetypal work into their practice, as well as students of
